The Visitor Aloha Society of Hawaiʻi (VASH) is a non-profit organization that provides assistance twenty four hours a day, seven days a week. VASH assists visitors whose vacations are affected by crime or other emergencies.

Tips for a Safe Vacation

HAWAII
TOURISM AUTHORITY

Aloha and Welcome to the Islands of Maui Nui!

(Maui, Moloka'i and Lāna'i)

You are visiting some of the most beautiful and pristine islands in the world. The allure of our islands, and the friendly aloha of our people, will embrace you and create memories to last a lifetime. But just as you would at home or when visiting any other destination, we encourage you to be mindful of your surroundings and various situations so that your visit is indeed positive and memorable.

Please take a moment to read the information enclosed very carefully and then enjoy your visit to *Maui, The Magic Isles™*!

General Safety Tips

- Do not dive into waterfalls or unknown pools of water. Rocks are often difficult to see.
- Drink plenty of water when hiking or spending a lot of time outdoors. The altitude of some hikes and the intense tropical sun can be dangerous.
- Island rainstorms can occur quickly and unexpectedly, and even brief downpours can cause flash floods. If the water level suddenly rises in a river, drainage canal or other waterway, immediately head for higher ground.
- Seat belts are required for all drivers and front-seat passengers. Car seats are required for children under four years of age and booster seats for children under eight years of age.
- Use caution when driving on one-way bridges. Courtesy is to alternate every four to five cars.
- Use sun block when outdoors as the sun's rays are harsher in the tropics.

Protect Your Valuables

- Do not leave valuables in your vehicle (this includes the trunk).
- Do not leave valuables unattended at the beach or pool.
- Avoid leaving itineraries exposed in your vehicle or hotel room.
- Do not display parking passes unless necessary.
- Carry cash separately from your credit cards.
- Keep a list of credit card account numbers stored separately from the actual cards.
- Store valuables in your hotel's safe deposit boxes, either in your room or at the front desk.
- If you do not wish to utilize safe deposit boxes, please place all valuables out-of-view when leaving your room or retiring for the evening.
- Close and lock all doors when you leave your room. This should also be done when retiring for the evening. Screen doors can be easily cut and glass sliding doors are often an easy point of entry.

Beach Safety Tips

- Swim at beaches with lifeguards.
- Before entering the water, check with lifeguards for information on ocean conditions.
- Never swim alone; use a buddy system.
- Look for and observe any warning signs. A red flag means it is unsafe to enter the water.
- Don't fight if you're caught in a rip current.
 - Stay calm – panic will only tire you.
 - Swim across or perpendicular to the current.
 - Wait for the current to release you – it will.
 - Swim parallel to shore and then make your way in.
- Never turn your back on the ocean near breaking waves.
- Be careful when standing near the shoreline or on rocks near breaking surf – waves can wash you into the ocean.
- If you see someone in trouble, alert a lifeguard or call 911. Unless you are an excellent swimmer, don't go into the ocean to assist the victim.
